The European project GALACTICA has announced the registration opening for the first webinars which will showcase both technical and business oriented discussions involving the textile, aerospace, and advanced manufacturing sectors. GALACTICA aims to support the creation of **new industrial value chains** around the textile and aerospace sectors, based on advanced manufacturing.

This series of weekly webinars will start on February 18th, 2021 and are aimed at seeding synergies across the different sectors involved in GALACTICA in views of the first **open call for proposals** which

will be launched in March 2021 with a budget of 1.2 M€ to support European SMEs.

Information and registration to GALACTICA webinars can be found here

GALACTICA webinars to seed cross-fertilization

GALACTICA is organising a series of 10 webinars with a variety of topics, both technical and focused on open innovation, for seeding cross-fertilization opportunities within the textile, aerospace, and advanced manufacturing sectors.

The events will have an interactive section where attendees will have the opportunity to raise their doubts and questions to the speakers. In case you cannot attend, you will be able to watch later the recordings on the GALACTICA project website.

Save the date for GALACTICA Matchmaking: March 24th

The first GALACTICA matchmaking event will take place on March 24th. The first **open call for proposals with € 1.2 million to support SMEs** will be presented. Attendees will be able to organise B2B meetings to identify potential partners to apply for GALACTICA funding under Pioneer Acceleration and Orbital projects.
