

BIObec

The **BIObec** project will promote education in the **bioeconomy** sector to address the gap between the bio-based industry and the educative system.

The project will establish multi-level **Bio-Based Education Centres** (BBECs) to act as knowledge hubs bridging the gap between academic institutions, students, innovation entities and policy makers.

BIObec has a budget of €1.5 million and is funded by the Bio-Based Industries Joint Undertaking (BBI JU) under the European Union's **Horizon 2020** [<https://ec.europa.eu/programmes/horizon2020/en/home>] research and innovation programme.
