The European GALACTICA project will support the creation of new value chains in the textile and aerospace industry based on **advanced manufacturing**, that is, on the application of advanced digital technologies to carry out the process of manufacturing in a more efficient way.

The project has a total budget of € 5M from which € 4M are directly targeted to support SMEs to innovate with diverse mechanisms including € 3M financial support through two open calls for proposals,

hackathons and travel grants.

Technological Corporation of Andalusia (CTA), [AEI Tèxtils](https://textils.cat/es/) [<https://textils.cat/es/>] (coordinator) and [ATEVAL](http://atevalinforma.com/) [<http://atevalinforma.com/>] are the Spanish partners of this project, which is made up of 10 European partners and funded by the Horizon 2020 research and innovation programme of the European Union (EU).
