MPowerBIO

The MPowerBIO project will train EU bio-based clusters to be better adapted and help SMEs to overcome the "valley of death", i.e., to get investors to get from idea to business.

MPowerBIO (Em-powering SME Clusters to help SMEs to overcome the valley of death) has received funding from the Bio-Based Industries

Joint Undertaking under the European Union's Horizon 2020 research and innovation programme under grant agreement No. 887501.

CTA and SUSTAINABLE INNOVATIONS are the Spanish partners of this project, which has a budget of €1.5M and a 30-month duration.

Partners

- [Agro Business Park](https://www.agropark.dk/) [<https://www.agropark.dk/>] (coordinator) - Denmark
