

# agroBRIDGES

The agroBRIDGES project proposes the development of an **agri-food** multi-actor framework and a set of practical support tools to **improve local producers' market positioning** and decrease intermediaries' margin.

Full EU roll-out, replication and training will be conducted, supported by a strong dissemination campaign and coordination with other EU projects and initiatives, through a clustering plan.

The project is funded under the European Union's **Horizon 2020** research and innovation programme.

## Partners

- Coordinator: Q-Plan International [ <https://qplan-intl.gr/> ] - Greece
- Agriculture and Food Development Authority [ <https://www.teagasc.ie/> ] - Ireland
- Munster Technological University (former ITT, Institute of Technology Tralee) [ <https://www.ittralee.ie/en/> ] - Ireland

## Budget and deadlines

**Total budget:** € 2.998.926

**Deadlines:** 01/1/2021 - 31/12/2023

## CTA activity

CTA coordinates the work package dedicated to maximising and replicating the project results in Europe. It will also lead the **knowledge transfer** actions, including the creation of a training programme for cluster managers, innovation agents and public administration.

## **agroBRIDGES kicks off, a new EU project to improve farmers' positioning in the agri-food chain**
