- + than **2,5 €M** of turnover in consulting services.
- + than **520** partners in 43 countries.

CTA as a partner

Potential contributions

- ▶ **Market penetration:** Leverage R&D+i results, exploitation and business modelling, knowledge and technology transfer to drive business growth.
- ▶ **Financial Support to third-parties (FSTP) in cascade funding projects:** Grant scheme design and implementation from ideation to completion, including evaluation, grant disbursement, and monitoring.
- ▶ **Collaborative Innovation:** Foster multi-actor approach through stakeholder engagement, open innovation practices and co-creation actions to drive systemic innovation.
- ▶ **SME Acceleration:** Support and accelerate technology-based SMEs and entrepreneurs.
- ▶ **Regional innovation node:** Design, implement, and manage regional innovation ecosystems such as Living Labs and EDIHs to facilitate innovation and knowledge sharing.
- ▶ **Impact enhancement:** Capacity building, train-the-trainer programmes, policy roadmaps drafting and value chain (re)definition to boost regional growth.
- ▶ **Public Procurement of Innovation (PPI) driver:** Promote PPI through advocacy and working groups to drive EU innovation agenda.

Dissemination and communication activities:

*More than 1.350 public media impact items/year
Workshops / events / seminars / webinars organisation
Innovation-oriented networking hub development, etc.*

EU funded projects
